

Rick Britton

Founder, Britton Construction: 1983 Present

Education: Bachelors of Science, Construction Engineering, Arizona State

Responsibilities:

A key to containing construction costs is superior job site management. Rick oversees all work performed by the company. His involvement ensures maintenance of quality standards and boosts productivity. Rick negotiates and reviews contracts in addition to monitoring job costs.

Prior to founding Britton Construction, Rick worked for Peter Kiewit Sons as a project engineer and job superintendent. He also worked for AFB Contractors where he was responsible for projects ranging in size to 50 million dollars.

Founding member and board member of the National Association of Church Design Builders (NACDB).

Certified Church Consultant.
